MYTHS

UNMASKED

We've all heard the saying, **"Look good, feel better."** It's a fact, is it not? With self-confidence comes that little push to tackle your day as a better you. No matter what size or shape greets you when you look in the mirror, not many people can honestly say they're happy with what they see. But think about the difference you could make in your daily life by taking just a small step towards a healthier (and healthier-looking) you!

If I told you that targeting your body's problem areas could be easy, would you believe me? If you're feeling doubtful, you've come to the right place! Often times people say, "Too much of a good thing..." or "There's just no way." That's absolutely not the case here. Our mission is to help you crush the goals you've set for your body and take back control. How can this be done? With the proven science and **GUARANTEED** results backing our Lipo Laser Treatments.

We get it, when someone says "Lipo Laser," it can seem a little daunting. The misinformation surrounding it comes from a lack of understanding of what it actually is...and what it does and doesn't do. That's why we're here to clear things up. Which leads us to the **Top 5 Myths Surrounding Lipo Laser Treatments.** Let's dive in!

- 1 **"IT'S DANGEROUS"**
- 2 **"IT'S VAIN"**
- 3 **"IT'S TOO EXPENSIVE"**
- 4 **"IT'S COMPLICATED"**
- 5 **"IT DOESN'T WORK"**

Rest easy knowing that this is **NOT** the case. This is an FDA cleared treatment! Any type of treatment that would potentially be dangerous to you or your body is not welcome in our Clinic!

In fact, here at Becking Clinic, we pride ourselves on being a pain-free solution. Our treatment is **100% non-invasive**. There will be no surgery and no downtime involved. It is, unquestionably, a safe and effective option in spot-treating fat reduction.

I mean, don't get me wrong...there are definitely pain eliciting, invasive treatment options out there, but Lipo Laser is not one of them. The goal of Lipo Laser isn't to freeze or burn body fat out of existence (like the treatment options offered by other practitioners). But rather the laser works to release unnecessary water, glycerol, and free fatty acids found in your body which allows them to be metabolized naturally and all on their own.

- ✓ NO PAIN
- ✓ NO SURGERY
- ✓ NO MEDICATION
- ✓ AND MOST IMPORTANTLY...NO DANGER.

JUST GUARANTEED INCHES LOST!

This is probably our least favorite one to hear. Lipo Laser treatments are **NOT** about vanity. Let’s say it louder for the people in the back! How often do we feel the need to camouflage parts of our body that we wish we could change? What about wearing bigger clothes to mask what’s underneath?

Guys, we **all** struggle, regardless of weight, size, shape, you name it. There are parts of all of us that we wish we could change, even just a little. It’s not fun. It’s something that breaks us down rather than build us up, and it can even affect multiple areas of our health - both physically and mentally.

Working towards tomorrow means you have to address the issues of today. Issues that are oftentimes rooted in low self-esteem or the yearning to get to a better place physically, mentally, and emotionally.

That place has the tendency to feel lightyears away, but there is a starting point for everyone and our goal is to help you take off. Remember that you’re not alone in the search for your best self. We will help you reach an amazing place where you can exist with self-love. One where you feel content when you look in the mirror - not contempt.

“

This is an absolute **GAME CHANGER**. It really is not about vanity, but feeling confident to be your most powerful self.

”

- CHANTELE BECKING

“IT’S TOO EXPENSIVE”

For starters - each and every client receives a **FREE** consultation. This is the very first step to determine whether or not you would be a good candidate.

(Some people are not great candidates for this treatment and we will be honest and transparent about that from the get-go. We wouldn't be who we are if we were willing to perform a treatment on someone and take their money knowing that it won't work for them.)

From there, we will discover your target spots and problem areas. We'll even ask you what your expectations are moving forward. Based on those, we will lay out a unique plan tailored to your goals and budget and let you know what kind of guaranteed results you can expect to see by the end of your treatment plan.

As far as money, we don't want this to be out of reach for you. We hope to work together to comprise a plan that is fair. Let's not forget, in comparison to more invasive options, Lipo Laser is incredibly affordable.

Not only are you saving money, but saving your peace of mind knowing this treatment is the best option for you.

Don’t be too lazy to get the facts.

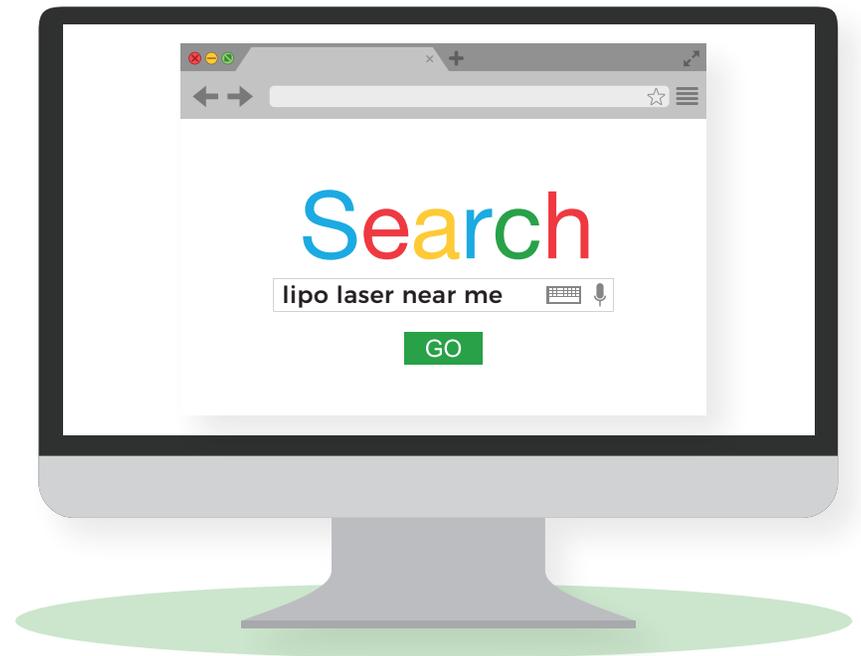

There are people that want to better themselves but won’t put in the effort for education because they fear it’s too complicated. There are also people that want to better themselves that do. So do. **Be a go-getter.**

What could be so complicated about treatments that come in short 7 minute increments?

7 MINUTE INCREMENTS

That’s right...7 minutes with zero side effects and zero recovery time. Don’t forget that with your **FREE** consultation, comes free education. If there is anything you want to know, we are happy to lay it all out on the table.

By the end of it, there should be no uncertainty and definitely no complications!

This is our favorite myth to address because it is **SO EASY** to debunk. Why? Because it's FDA cleared! This means that the Center for Drug Evaluation and Research (CDER) looked at this treatment and gave it a thumbs up, so it is proven to work. We weren't kidding when we said we have the proven results and science to back it up. As we mentioned earlier, with Lipo-Laser Treatments, results are guaranteed. Right off the bat, you will see change. You will see a you that you're happier to see. We have **countless** testimonials from women Just. Like. You! (Don't believe, check out our website or visit us on social media to see them all!)

These women have been completely mind-blown at how these treatments have changed their lives. It doesn't matter what brings you in, a wedding, vacation, lifestyle change, or even just a desire to be a happier, healthier you...Lipo Laser can give you the results that you want and need.

As women, it's hard to be uncomfortable in our own skin. Imagine gaining the type of confidence that motivates you in more aspects of your life than just one. We're here to help give you get your power back. You know you're one incredible, capable-of-anything woman, so let's uncover that. **Call the Becking Clinic today** to learn more about our Lipo-Laser Treatment and let's introduce you to your most powerful self!

“

At the end measuring, I remember being **shocked** that it could be so many inches.
